Subject: SIBW PRP Table

Here's part of a table. If you don't like the set up or columns, you can of course block and copy the PRP names.

I input all facility names on Tom's chart, plus Tomar. I set it up in the first column w/ facility name, and then, when I knew it, below the facility name, indented, and in brackets, the names of the associated parties and their relationship to the facility.

That list ends at Zemun. Of the parties on that list, where I could tell from our invitation to the September 1997 PRP meeting and your notes on it about who got special notice, I input that information. I also input the information from one of the docs you gave me, "SIBW PARTIES WHO HAVE RECEIVED GENERAL NOTICE." (SFund Records Ctr Doc # 3918-90386. A few parties were on that records center document that were not on Tom's list. I listed them below a series of backslashes ///// that are below Zemun at the bottom of the chart.

The titles of the categories are on the top of each page because I did that as header A.

I did not go through the other general notice lists re: soils etc. because I can't figure out who is who. But I could stay with you tonight or tomorrow to work through it and do input so we can at least get total numbers of general notices, etc.
or if there's other stuff I could do to help you prepare, let me know.

Call if questions.
